CHRISTOPHER FERNANDO VASCO ESPIN

PROFESSIONAL OBJECTIVE

As a person, I consider myself responsible, disciplined and motivated to learn and exceed my expectations. My interest in software development stems from my passion for technology and the process of software innovation. My long-term goal is to collaborate with a company to help it grow while developing my professional career. I believe that my adaptability, rapid learning and responsibility in tasks, together with my enthusiasm for technology, make me an ideal candidate to work with you.
